Church completes survey

NCLS Research processes survey forms

Church receives Pack with their Church Life Profile

Church uses Profile and other resources to reflect and plan for the future

The aim: to help your church to have 'LIFE TO THE FULL'

Your church has completed the 2011 National Church Life Survey.

You have received your Church Life Profile which contains the survey results, giving you a snapshot of your current health and vitality.

So now what?

Inviting someone to walk alongside your church and facilitate a process of engaging your survey results and planning for the future can help you make the most of the experience.

This Directory contains contact details for people who:

- Can point you to others who may help or
- Are consultants or facilitators ready to work with your church.

This listing has been developed in consultation with denominational representatives.

The purpose of this Directory is to provide churches with some options for finding a consultant or facilitator to help them make the most of their Church Life Survey experience. It contains contact details for denominations who took part in the 2011 NCLS.

The people listed here can either:

- » **Provide direction:** Some people listed here are not consultants, but are a first point of contact, pointing you to others who may help your church OR
- » **Offer assistance:** Some are consultants or facilitators ready to work with your church.

Your denomination or region not listed?

If no contact is listed for your denomination or region, it means we were unable to confirm a suitable contact. You may wish to contact someone else from this Directory. For example, there is a list of people who are willing to work across all denominations at the end.

Please Respect Others: Do not distribute this list or contact people on this list for anything other than the stated purpose.
